

SlowMotion Delta

***Adjustable add-on
hinge damper***

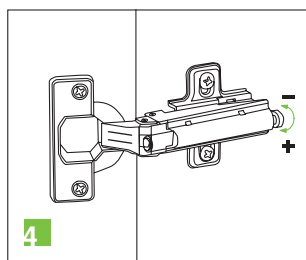

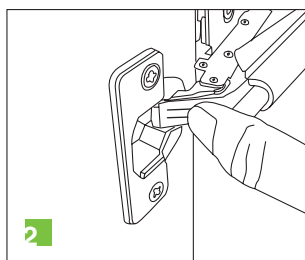

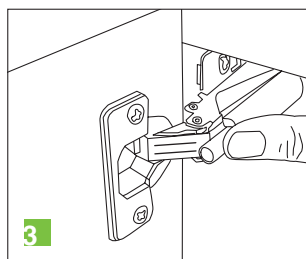

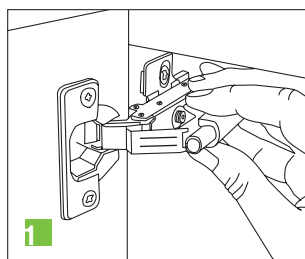

**FORMENTI &
GIOVENZANA**

Many advantages:

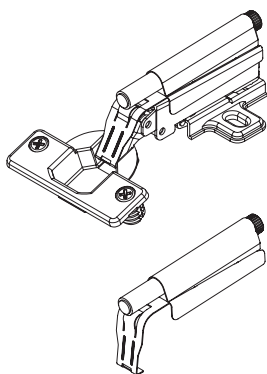

- Easy clip-on feature to fix the damper onto the front part of the hinge
- Removable for access to adjustment screws of the hinge
- Adjustable in position to accommodate door size and door weight
- Fits onto crank 0 hinges directly and is used with gap covers for crank 4/8/15 hinges

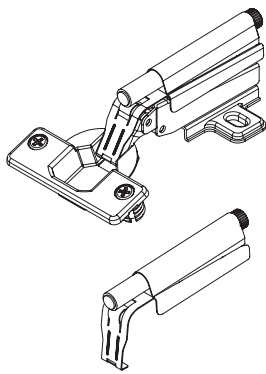

Easy to assemble:

- Position the damper over the hinge on the nose
- Press the front clip onto the nose
- To dismount, slide the damper forward without lifting
- To increase force turn the screw on the back of the damper to right, to reduce the force, turn left
